Site settings are how you personalize and edit your website and make it your own. Explore the options below.

LISTINGS

- G** IDX Integration Select your MLS and show listings on your site
- H** Global Filters Decide which listings you want to show on your site
- I** Featured Listings Select the listings you want displayed as featured
- J** Open House Info Add Open House info to your single property site

SITE DESIGN

- K** Theme Selection Choose the look and feel of your site
- L** Slideshow Change the images and captions to your homepage
- M** Certifications Display the logos for certifications you've earned
- N** Social Networks Link to your social pages from your site
- O** Search Form Select the fields you want in your search forms
- P** Menu Choose the pages you want in your navigation
- Q** Site Info Manage your site's name, logo, displayed contact info etc

MORE

- R** Lead Capture Choose how you want to capture visitor info
- S** Custom Domain Add a custom domain name
- T** Site Tracking Integrate Google Analytics and track visitor activity
- U** Site Verification Verify ownership of your site

Remember, You can change your Site settings at any time as often as you like.

You can also access Site Settings from any page by click on the Site Settings link in the Welcome bar at the top of the page.

- G** This section will get you set up to get your MLS listings on your KW Website.
- H** Once complete with **IDX Integration**, you can decide which listings in your MLS to display.
- I** Once complete with **IDX Integration**, you can set criteria that will be used to show feature listings on your site.
- J** THIS FEATURE IS NOT AVAILABLE.
- K** Choose your template. The Madison design is exclusive to KW agent websites.
- L** After you choose your template, you can use templated or customized slide shows that scroll on your website.
- M** Display the logos for certifications you've earned to show your areas of expertise.
- N** Add links to your personal or business social media accounts to display on your website.
- O** You can select the fields you want in your search forms. (IF YOU CHOOSE MADISON DESIGN, THIS SECTION IS UNNECESSARY.)
- P** Choose the pages you want to show in your navigation menu.
- Q** This section is where you will manage your sites branding (name, logo, and contact information).
- R** You can choose your **Lead Capture** setting from Passive, Aggressive or Custom.
- S** If you have a custom domain name, you can add it to your KW Website here.
- T** This section is where you can add your **Google Analytics and Conversion Tracking**.
- U** Verify ownership of your website by placing a **Site Verification** (Required by certain social media sites).
